(b) Approximately the 5th century AD is fixed by him "as the earliest possible date of Porulatikaram, and as the date of the final redaction of the Tolkappiyam."

(c) "Thus, the nuclear portions of Tolkappiyam were probably born sometime in the 2nd or 1st century BC., but hardly before 150 BC... The final redaction probably take place before the 5th century AD., so that the ultimate shape of the sutras as we have them before us is probably not earlier than the middle of the first millennium of our era."

It is sad news that Sri. Iravatham Mahadevan is no more. On the day he passed away, I wrote this note in googlegroups.
